 <h2>Intro to Academy</h2>	<h3>Intro to Academy</h3> <p>8 Sections Fundamental General</p> <p>Your first stop in Hack The Box Academy to become acquainted with the platform, its features, and its learning process.</p>	<p>100% Completed</p> <div><div style="width: 100%;"></div></div>
 <h2>Introduction to Networking</h2>	<h3>Introduction to Networking</h3> <p>21 Sections Fundamental General</p> <p>As an information security professional, a firm grasp of networking fundamentals and the required components is necessary. Without a strong foundation in networking, it will be tough to progress in any area of information security. Understanding how a network is structured and how the communication between the individual hosts and servers takes place using the various protocols allows us to understand the entire network structure and its network traffic in detail and how different communication standards are handled. This knowledge is essential to create our tools and to interact with the protocols.</p>	<p>100% Completed</p> <div><div style="width: 100%;"></div></div>
 <h2>Windows Fundamentals</h2>	<h3>Windows Fundamentals</h3> <p>14 Sections Fundamental General</p> <p>This module covers the fundamentals required to work comfortably with the Windows operating system.</p>	<p>100% Completed</p> <div><div style="width: 100%;"></div></div>
 <h2>Setting Up</h2>	<h3>Setting Up</h3> <p>9 Sections Fundamental General</p> <p>This module covers topics that will help us be better prepared before conducting penetration tests. Preparations before a penetration test can often take a lot of time and effort, and this module shows how to prepare efficiently.</p>	<p>100% Completed</p> <div><div style="width: 100%;"></div></div>
